CUSTOM
TERRAZZO
EXPERT

ABOUT US

YUANSHEN is a leading terrazzo manufacturer based in Xiamen, China. We specialize in custom terrazzo solutions tailored to your vision.

With advanced terrazzo production technology, we ensure consistency, precision, and design flexibility in every project.

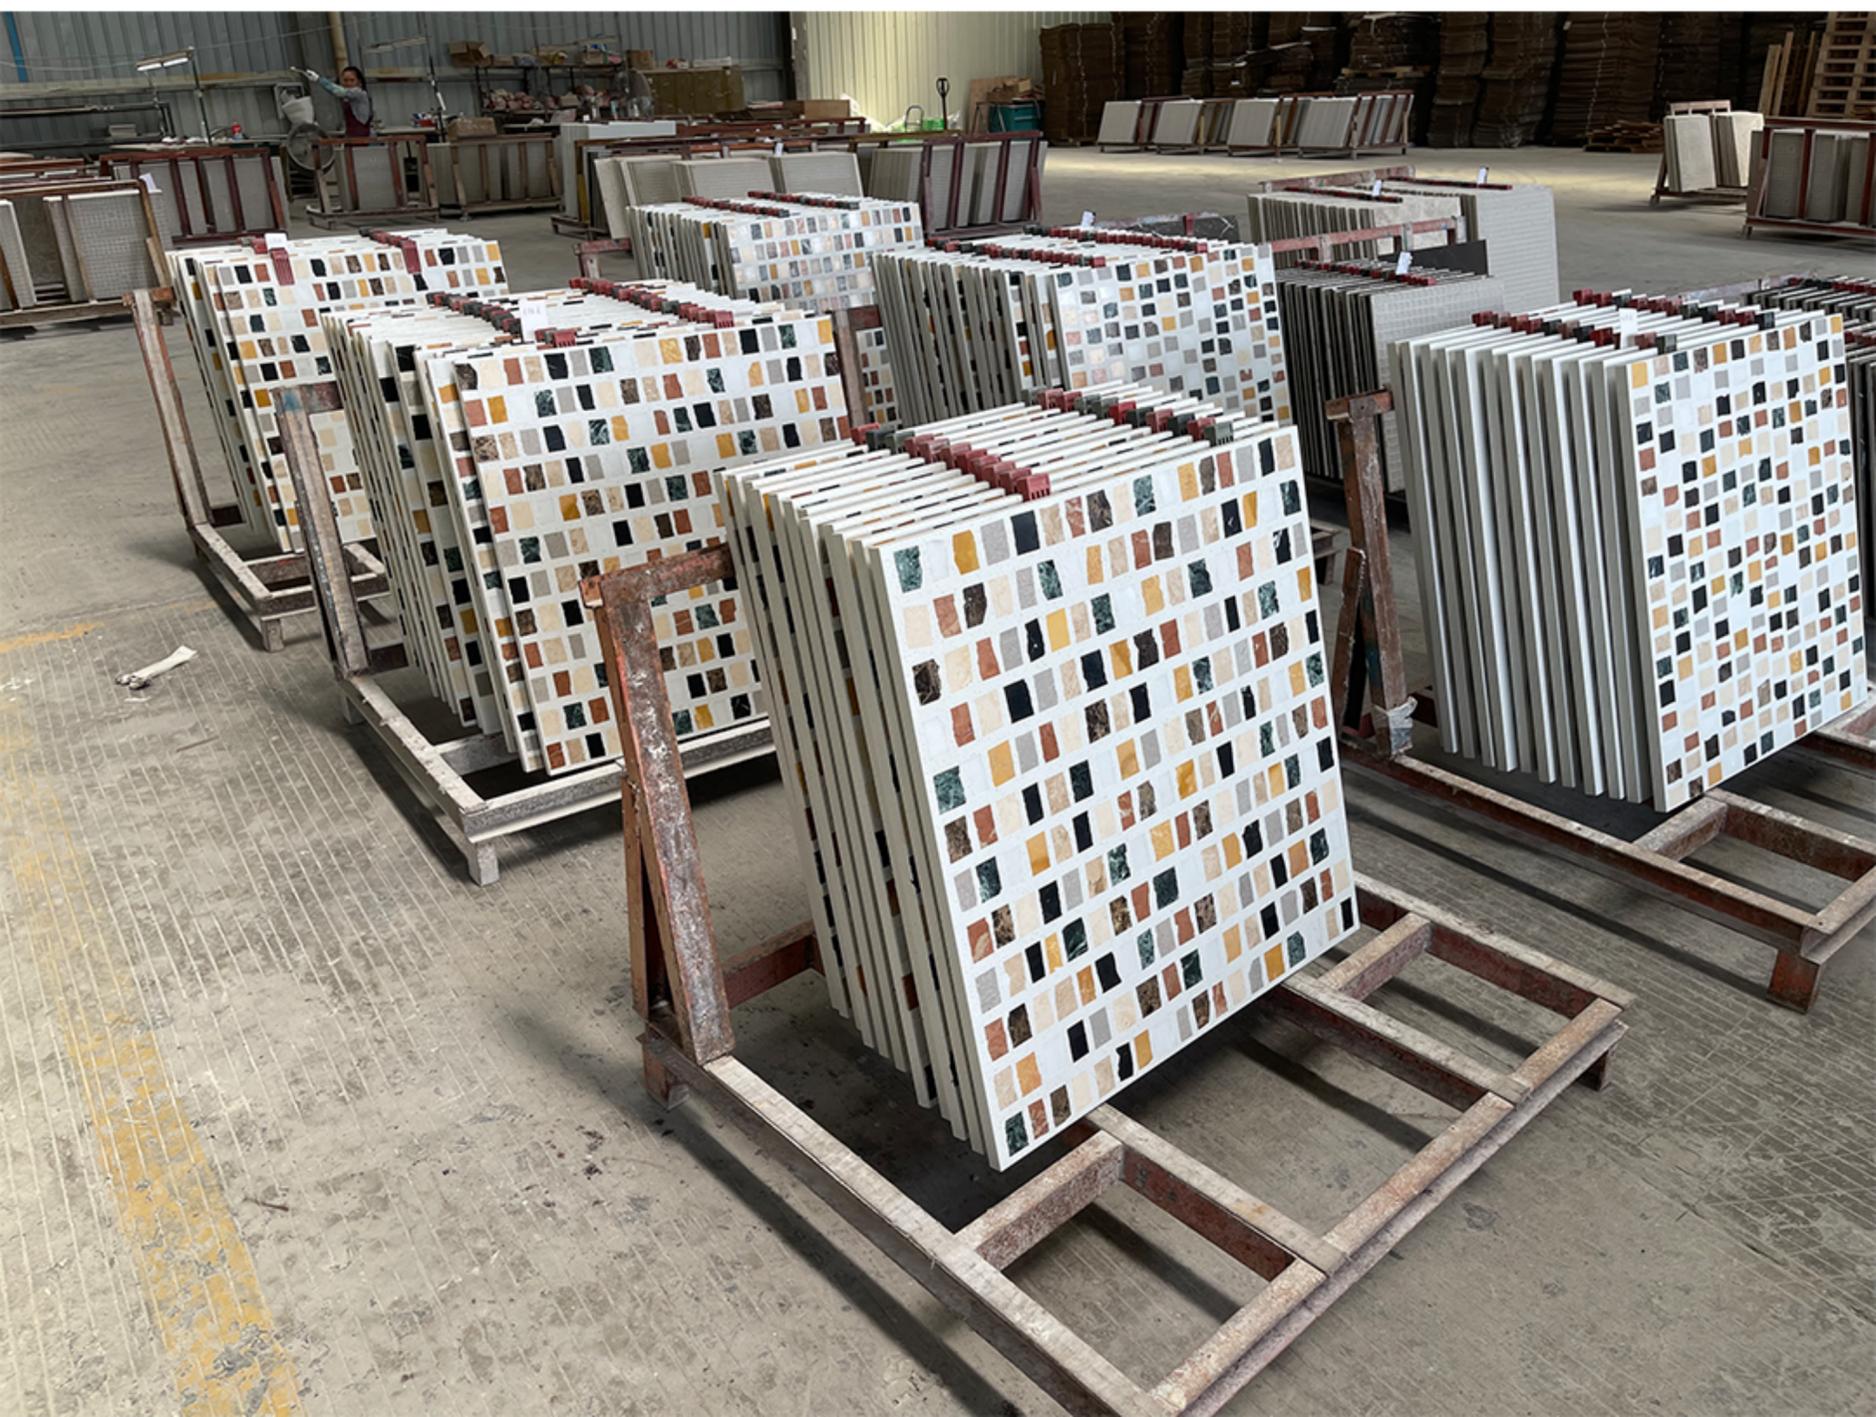

Our factory operates under a complete quality assurance system, certified to meet rigorous international standards.

We collaborate closely with architects, designers, and developers across sectors—residential, commercial, and public infrastructure.

From small-batch artisanal work to large-scale architectural applications, YUANSHEN delivers durability and visual impact.

Rooted in craftsmanship and innovation, we bring a fresh perspective to terrazzo, balancing tradition with modern aesthetics.

Let us help you transform bold concepts into tangible surfaces—each slab crafted with care, character, and purpose.

OUR VISION

At **YUANSHEN**, we envision a future where design and sustainability go hand in hand. We are committed to integrating **eco-friendly** practices and **recycled** materials into every stage of terrazzo production.

By giving new life to discarded stone fragments, we reduce waste and promote circular design. Our goal is to create beautiful, durable surfaces that not only inspire, but also **respect the planet**.

TERRAZZO SERIES

MARBLE PIECES SERIES

The **MARBLE PIECES** collection features carefully selected marble fragments combined with Yuanshen's exclusive base formulation technology.

This unique blend creates terrazzo with rich layers and organic textures. Each piece reflects respect for materials and precision in craftsmanship. Ideal for high-end residences, commercial spaces, and artistic installations, it brings distinctive character and refined elegance to any environment.

GEOMETRIC SERIES

The **GEOMETRIC** collection blends imaginative design with meticulous craftsmanship, bringing geometric aesthetics into the world of terrazzo. Each piece features bold patterns and harmonious color contrasts, offering a modern yet artistic appeal. Perfect for contemporary interiors, creative commercial spaces, and statement installations, this series delivers rhythm, structure, and visual impact to any surface.

The **MOSAIC** collection focuses on the art of composition carefully arranging terrazzo elements into striking, expressive patterns. Inspired by bold design concepts, each piece showcases a dynamic interplay of shapes and textures. The result is a surface with strong visual impact, ideal for feature walls, statement floors, and creative spatial installations that demand attention and individuality.

MOSAIC SERIES

RIVERSTONE SERIES

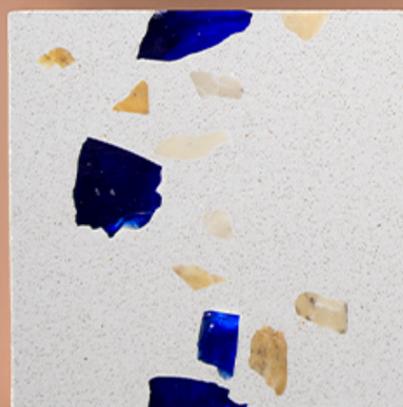

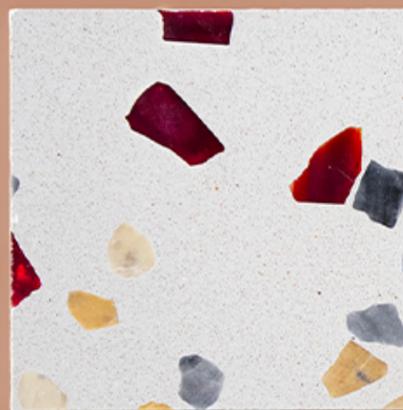

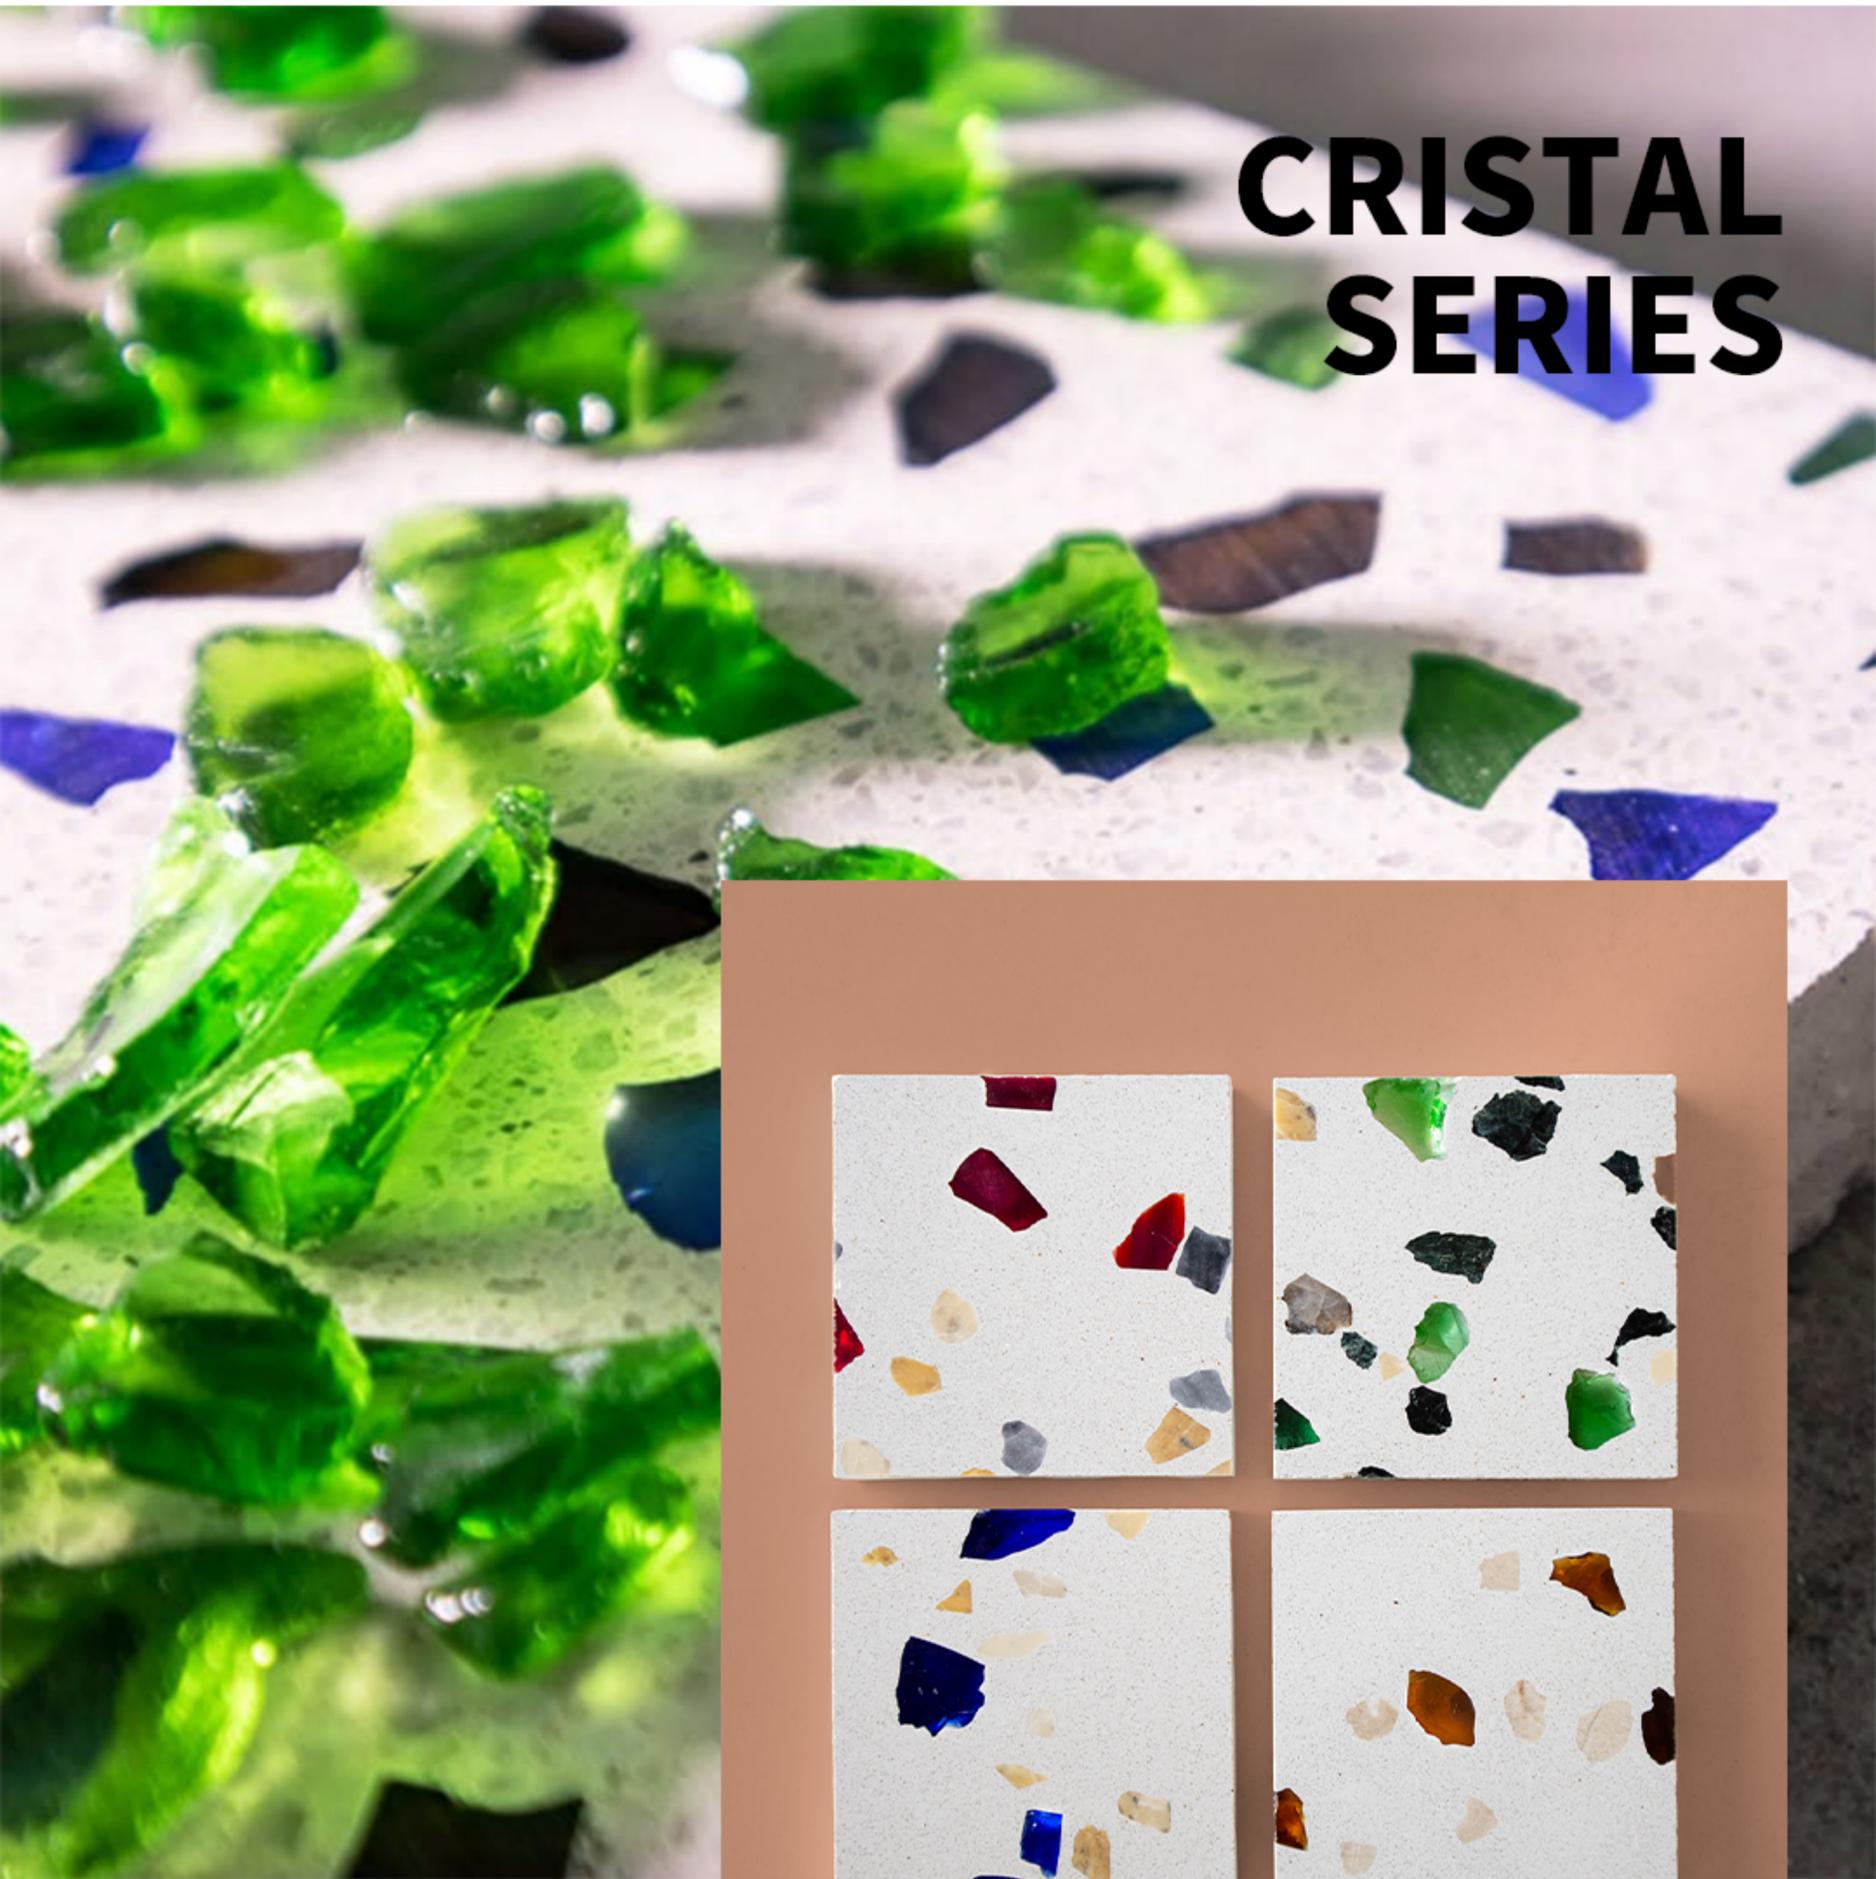

The **RIVERSTONE** collection features natural river pebbles as primary aggregates, celebrating the raw beauty of nature. Each terrazzo surface reveals the organic texture, smooth contours, and earthy tones of real stone. Subtle yet expressive, this series brings a sense of calm and grounded elegance to interiors—perfect for wellness spaces, nature-inspired designs, and tranquil architectural settings.

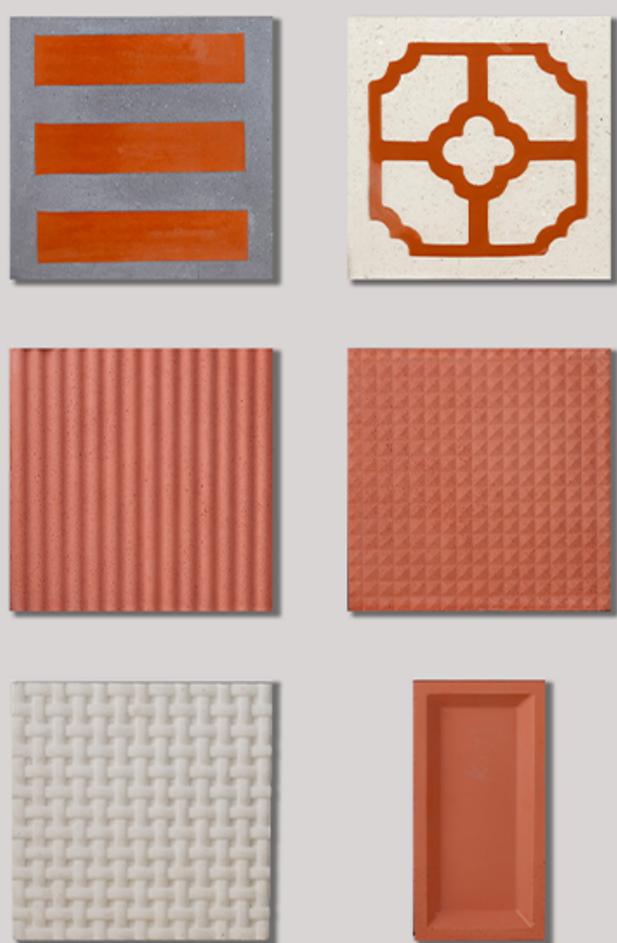

The **CRISTAL** collection features crystal-like aggregates such as glass and jade, emphasizing translucency and light interaction. As light passes through the materials, each surface comes alive with a luminous, airy quality. Elegant and expressive, this terrazzo series is ideal for refined interiors, artistic spaces, and environments that celebrate light and material harmony.

CRISTAL SERIES

TERRA TILES SERIES

The **TERRA TILES** collection embraces sustainability and regeneration, using Yuanshen's exclusive concrete formula to create innovative building materials that rival natural stone. With strong performance and refined texture, this series reduces the need for quarrying and minimizes environmental impact. Ideal for eco-conscious architecture, TERRA TILES reflects a balance between aesthetic excellence and environmental responsibility.

FURNITURE SERIES

Using terrazzo to craft furniture is a brilliant fusion of form and function.

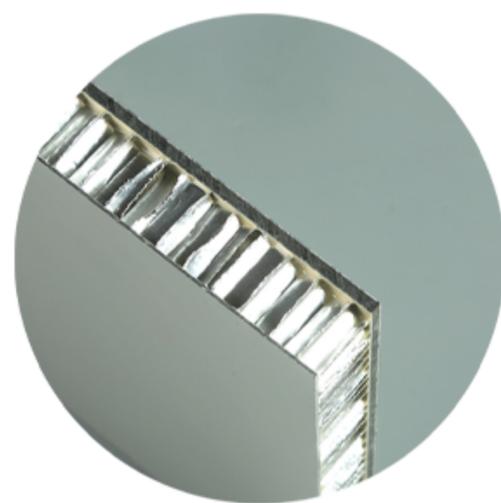

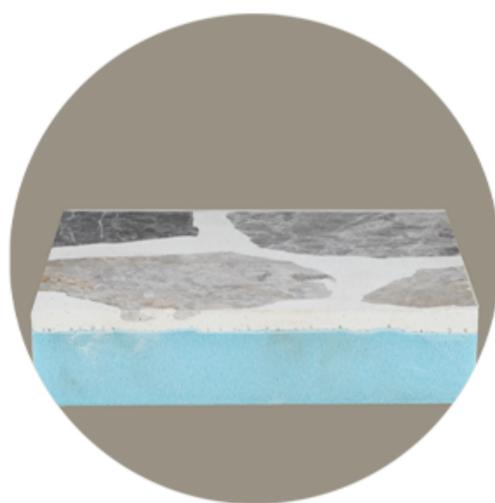

Yuanshen's **FURNITURE** collection brings this idea to life transforming terrazzo's durability, texture, and color into striking tables, seating, and decorative pieces. Each item blends sculptural presence with everyday practicality, offering a bold design statement and tactile experience for contemporary interiors.

WHAT WILL HAPPEN IF WE MAKE TERRAZZO SUPER THIN?

Imagine terrazzo in ultra-thin form—lightweight, versatile, and full of creative potential. With Yuanshen's **Super Thin** production techniques, this vision becomes reality. Ultra-thin terrazzo is ideal for wall cladding, cabinetry finishes, and furniture surfaces.

It retains the strength of traditional terrazzo while offering a refined, lightweight solution for modern interior applications.
